## COMING EVENTS & EXHIBITIONS

### The Art Of The Brick

**May 24-Sep 1**  
 THE ART OF THE BRICK, a captivating touring exhibition, features intriguing works of art made exclusively from one of the most recognizable toys in the world, the LEGO® brick. This critically acclaimed collection of creative and inspiring pieces constructed using only LEGO bricks is created by renowned contemporary artist Nathan Sawaya.

### Da Vinci—The Genius

**Nov 16–Mar 15, 2020**  
 For the first time, Italian artisans have crafted interactive and life-size machine inventions for this unique Leonardo da Vinci exhibition experience. The Secrets of Mona Lisa also explores the findings of French scientific engineer Pascal Cotte, who with his self-invented multispectral camera startled the art world with 25 revelations including the original pigment colors from 1506, thereby producing the world's only exact replica.
